

Weigh master report – February 2019

Hello all members. This past weekend offered a good opportunity to get out and have a fish. Saturday morning weather conditions were good although the fish did not want to co-operate with team Harris with Gail landing a couple of flathead and none for yours truly, but others did a lot better with a few nice fish being weighed in. Sunday morning presented another good opportunity to try and land a few.

The weigh in on Sunday was a good one again with Ray Lightbody landing a monster flathead that broke David Slingsby record set just last year, also El Presidente presented with a couple of nice whiting and Peter Cousins with some squid .

I have put together a leader's board for a running tally of size fish and what categories are still available (see below)

The bbq was as fantastic as ever and thanks to all concerned. With the scones and drinks appreciated by all, again thanks to all and I hope to see a huge turnout at our next couple of comps.

Russell Harris
